CAST SELECTED FOR "OUR TOWN"

Quite a number of Laboratory employees have been selected to take an active part in the Hampton Little Theatre's forthcoming production of "Our Town" which will be presented November 18 and 19 at the Hampton High School auditorium.

Jack Parkinson, Chief of the Hydrodynamics Division, will celebrate his tenth anniversary on the stage when he appears as the narrator. Parkinson made his first stage appearance ten years ago in "Our Town" as Dr. Gibbs.

Other Laboratory employees in the cast are: Bob Little, West Sheetmetal Shop as Howie Newsome; Marion Primavera, Payroll, as Emily Webb; Jim Bailey, 16-Foot, as Editor Webb; E. J. Shave, retired employee, as Constable Warren; Joe Herrig, Rotating Machines, as the undertaker; Adele Bailey, 8-Foot, Jack Ramsen, Tank, Bunny Klawans, Flight Research, Nancy Klawans, 16-Foot, Peggy Smith, Library, and Margaret Price, Central Files, all as choir members. Granville Derby, 8-Foot, has been selected to play various bit parts and Louis Ellis, son of Bernard Ellis of Electrical Engineering, has been cast as Wally Webb. Bob Coltrane, Jr., son of Lucille Coltrane of PARD, and Donald M. Goldenbaum, son of David M. Goldenbaum, have been cast as newsboys.

Dave Goldenbaum, Director of the play, pointed out that sound effects will be handled by a woman for the first time in Little Theatre history. Jo Anne Berry, East Library, is in charge of sound effects and Goldenbaum pointed out that this is one of the most important phases of the production since no scenery is used. Equally as important will be the lighting effects which will be handled by Douglas A. King, Tank #2. Dick Cole, Stock Control, is producer, George Redmon, 8-Foot, Stage Manager, and Bernard Weinflash, Tank #2, assistant electrician.

SMOKER PLANNED FOR WEDNESDAY

The Activities Association will sponsor their first smoker for the season next Wednesday at 7:30 p.m. at the Activities Building when John Houbolt, Structures Research, speaks on his recent tour of duty in England as an exchange research scientist with the Royal Aircraft Establishment.

Houbolt pointed out that his talk will not be of a highly technical nature but will be a more popular discussion of his general impression of England and the various countries on the Continent. He will give a brief insight as to the research work being carried on in England and at the Royal Aircraft Establishment in particular but his talk will deal primarily with his impression of the people, living conditions that exist in the various countries, the cost of living, and other items of interest. Plans are underway to supplement the talk with colored movies.

As was pointed out last week, there will be no admission and all Laboratory employees are invited to come and bring their families and friends.

BINGO PARTY NEXT THURSDAY

Laboratory employees are reminded that next Thursday is payday which means it is also Bingo night. As usual, number calling will get underway at 8:30 p.m. at the Activities Building and the jack-pot is growing larger and larger each time.

The Grand Prize for the party next Thursday night will be a Motorola television set with an 8½-inch screen and antenna.

No one won the jack pot at the last party so seven numbers will be called and a Universal pressure cooker will be added to the list.

DANCE PLANNED FOR TOMORROW

Laboratory socialites are reminded that tomorrow night is the night when the Activities Association will sponsor their second in a series of bi-weekly dances at the Activities Building.

The informal affair will get underway at 9 p.m. and music will be furnished by the Townsmen until one in the morning.

As was pointed out last week by Social Chairman Bob Harrington, sections are urged to get together and plan section parties for the dance. A new plan has been worked out whereby sections may make table reservations. Reservations are limited to section parties and may not be made by individuals.

The following rules apply when making reservations: Call Bruce Amole between Monday noon and Friday noon on the week of the dance. No reservations will be accepted before or after these times. Reservations will be held until 9:30 p.m.; the Activities Association reserves the right to designate table location due to the seating arrangement that may be necessary because of odd numbers of couples; and reservations will be made for section parties only.

Admission will be one dollar, stag or drag, and tickets may be purchased at the door.

PRIMARY ELECTION SET FOR OCT. 31

Pat Cancro, Chairman of the Executive Board of the Activities Association, announced that the primary election for representatives to the General Assembly of the Activities Association will be held on Monday, October 31. The election procedure has been changed somewhat this year and will be handled as follows:

The Chairman of the Executive Board will appoint a balloting committee and district leaders. The
